

Supplying Anti-microbial Technologies in an Uncertain World.

We supply businesses, clients and NGOs with our line of disinfectants, sanitizers and gels to control pathogens.

READY TO SUPPLY PRODUCTS:

• Hand Sanitizer — 70% alcohol.

- ✓ Thickened, fluid gel, with a fresh fragrance.
- ✓ Manufactured at our ISO:9001 facility.

*Available in 20L, 200L for refilling dispensers.
We offer a full line of bottling/packaging options.*

• Hypochlorous Acid (HOCL)

- ✓ Approved by the EPA to eliminate Covid-19.¹
- ✓ Non-toxic alternative to conventional chlorinated products.
- ✓ 100x more effective than bleach.
- ✓ Certified organic HOCL is DIN approved by Health Canada.¹

While, typical cleaning products that include quarternary ammonium compounds (Lysol, Clorox, Mr. Clean, etc.) harm the respiratory system and promote drug resistance, HOCL is entirely non-toxic, highly effective, safe to human tissue, and environmentally benign.

Available in 500ppm (disinfectant), 200ppm (sanitizer), and 50ppm for fogging environments. 20L, 200L, 1000L available.

• Anti-microbial Coating

- ✓ Safe, inert non-leaching coating that continually sanitizes surfaces with an active approved by Health Canada.¹
- ✓ Bacteria, moulds, mildews, etc., are eliminated mechanically so pathogens cannot become immune to its effects.
- ✓ Active has been shown to deactivate previous Coronaviruses.¹

20L, 200L, 1000L available.

ADDITIONAL PRODUCTS:

• Disinfectant Cleaner

Standard disinfectant.
Approved by Health Canada.
*Available for shipping today.
